

Towari Soba Shochu

This shochu is technically interesting because it is produced 100% from buckwheat, which is rare because it is difficult to start the Koji mold on this cereal which has very hard envelope. It is then distilled at normal pressure to obtain rich and deep flavors. A silky and delicate shochu, but also full of fruits.

Very well balanced. A shochu based on soba

???????

50cl - alc. 25% vol.

Product Type: Shochu

Category: Buckwheat

Alcohol: Alc. 25% Vol.

Format: 50cl bottle

Producer: Takara Shuzo

Region: Pref. of Kyoto
